

Facts

Processes that fit.

Mercoline – Your specialist along the supply chain.

Facts.

Expertise:

Mercoline provides process consulting and IT solutions all along the supply chain. As a certified SAP partner Mercoline has more than 25 years of experience in managing IT-supported business processes as well as experience in the manufacturing, logistics and trade sectors.

Our customers use Mercoline's standardized software with their SAP-Systems and our comprehensive consulting skills in all of their SAP disciplines. Mercoline provides solutions for everything from transport management to ATLAS customs clearance, sanctioned party screening, B2B integration and e-invoicing. The applications can be fully integrated as SAP add-ons or provided in Software-as-a-Service form (SaaS).

Target markets:

Mercoline's customers are SAP users. Medium-sized to large-scale companies from every industry rely on Mercoline's software and services.

Benefits:

Speed – Flexible yet standardized solutions help to reduce implementation phases and costs and to protect investments.

Process knowledge – Mercoline's customers appreciate our concentration on the challenges of the supply chain.

One-source solutions – Mercoline bundles its expertise and is a software supplier, implementation partner and service provider all-in-one.

Services:

Mercoline's solutions also provide you with great operational flexibility. Tailor-made services in areas such as EDI complete the Mercoline portfolio.

Mercoline offers services that accompany your projects that you won't find just anywhere. For instance, in addition to project management we also run a help desk service and take on the supervision of operative tasks or perform non-core or administrative processes.

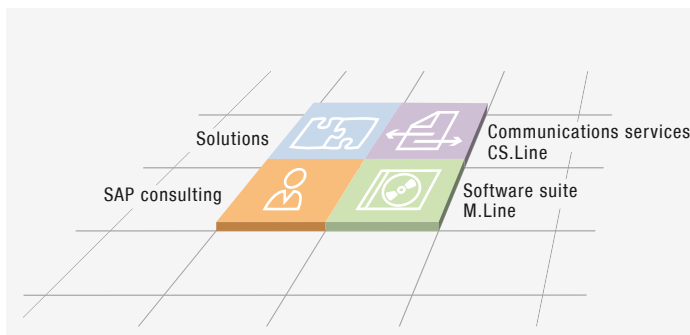

100% process knowledge.
100% speed.
100% innovation.

What we offer.

Mercoline – Your specialist along the supply chain.

Here's an overview of Mercoline's range of services:

- **Solutions** - Tailored IT solutions and services all along the supply chain for SAP systems or as SaaS. This includes areas such as transport management, customs clearance, sanctioned party screening, B2B business partner integration and electronic invoicing.
- **CS.Line communications services** - Communications services and software for synchronized collaboration along your supply chain. This includes areas such as EDI services, Web-EDI, digital signature, paper-to-ERP and ERP-to-paper.
- **SAP consulting** - We have many years of know-how on processes and technology in a variety of SAP business suite segments to achieve the realization of your SAP requirements. Even without the installation of new software, Mercoline supports numerous customers in the design and IT-based implementation of their processes in SAP systems and beyond.
- **M.Line software suite** - is a composite software suite for SAP users that provides support along the supply chain.

Intelligent solutions, professional consultants, reliable services and innovative software are the cornerstones for the joint success of Mercoline and our customers.
