M.SecureTrade Entry Certificate

Dieter Kuske, Head of IT, Müller & Meirer Lederwarenfabrik GmbH

“Mercoline’s solution takes the complexity and effort out of implementing new legal stipulations. Its great functionality and flexibility has enabled us to quickly comply with all of our requirements.”

MÜLLER & MEIRER

Company profile

Industry:

Leather goods

Products:

Bags, shoes, small leather goods for licensed brands including Gerry Weber, Porsche Design, Strellson, Maître and JOOP!

Headquarters:

Kirn, Germany

Automatic management of Entry Certificates in SAP

Customer demand:

- SAP-integrated implementation of new verification obligations that comply with applicable legal stipulations (Entry Certificate) for intra-EU deliveries
- Reduced complexity for creating and monitoring Entry Certificates in an SAP-integrated solution
- Simplification in processing numerous DHL package deliveries via integrated DHL tracking data
- Highest possible level of automation for all Entry Certificates, including those associated with small customers and e-mail deliveries

Project info:

- Project timeframe: 06/2014-12/2014
- Mercoline solution: M.SecureTrade Entry Certificate, M.SecureTrade Web Portal
- Entry Certificates per year: ca. 12,000

Benefits:

- Minimization of VAT costs via the solution’s high level of integration into the existing business and SAP processes
- Reduction of required administrative effort thanks to flexible options for simplifying legal processes, such as Collective Entry Certificates, electronic reports, etc.
- Reduced complexity and effort for communicating with business customers via tracking data from transport service providers
- High level of transparency and traceability through the solution’s monitoring functions and the integration of EC docs into the SAP document flow

Solution details:

- Implementation of Mercoline’s M.SecureTrade Entry Certificate solution
- Creation of EC docs in SAP via customized data retrieval from deliveries
- Program installation for importing and assessing DHL tracking data
- Consolidated Entry Certificates for customers with multiple deliveries (via a special exceptions table)
- Direct communication between the SAP system and the M.SecureTrade Web Portal for fully automated electronic reporting via one-time links and web forms
- Three-tiered late notice policy in 15-day increments for pending Entry Certificates
